

ICE STAFF PLAYER GUIDE (P2)

A pruned copy of the full guide, focused only on what the **Ice Staff** player needs.

Your zone: Spawn → Workshop → middle of the map, then the church. **Your staff:** Staff of Ice → **Ull's Arrow**.
Your extra jobs: shovel duty and digging, and later you become the squad's **Zombie Blood generator** — which is what unlocks Step 5.

YOU ARE THE MOST TIME-CRITICAL PLAYER IN THE SQUAD.

All three of your parts come from dig spots, and dig spots only yield ice parts **while it is snowing**. Snow happens roughly on **rounds 2–4**, again around **round 10**, then randomly. Miss the first window and you stall the whole run.

YOUR CHECKLIST

- ☐ **Grab a shovel in round 1** (spawn, by the starting radio)
- ☐ Dig everything in the **starting area** while it snows (rounds 2–4)
- ☐ Dig the **middle of the map** while it snows
- ☐ Dig **near the church** while it snows (may need the round-10 window)
- ☐ Grab the **blue record** at the Tank Station (Gen 2)
- ☐ Enter the Crazy Place via the **Ice tunnel** (church / Gen 6) → take the blue gem
- ☐ Build the staff at the blue pedestal
- ☐ Upgrade A — six floating panels puzzle in the Crazy Place
- ☐ Upgrade B — freeze + shatter the three water gravestones
- ☐ Upgrade C — rings all blue, shoot the blue orb
- ☐ Upgrade D — charge on the blue pedestal (~20 kills)
- ☐ Optional but strong: **dig 30 spots** → **golden shovel** → **Golden Helmet**
- ☐ Shared: G-Strike, soul chests, One Inch Punch

ROUND PLAN

ROUNDS	YOU DO
1	Take a shovel immediately. Kill for points. Help cap Gen 1 .
2–4	SNOW WINDOW. Dig every spot in the spawn/workshop area and the middle. Call out "still snowing, don't end the round".
4–7	Grab the blue record at the Tank Station. Keep digging normal spots toward the golden shovel.
7–10	Church path opens → dig the church-area spots on the next snow.
~10	SECOND SNOW WINDOW. Finish any missing parts.
8–12	Ice tunnel portal (last stop on the gramophone circuit) → blue gem → build.
12+	Upgrade chain, then run the Zombie Blood farm every round for the team.

BUILD THE STAFF OF ICE

Built at the **blue pedestal**, lowest level of the Excavation Site (opened with the gramophone + black record).

PARTS – DIG THEM, AND ONLY WHILE IT SNOWS

Three parts, one in each zone:

1. **Starting area** — spawn through to the workshop, either side.
2. **Middle of the map.**
3. **Near the church.**

How to work a snow window:

- The moment snow starts, call it out on comms: *"snowing — nobody end the round."*
- Sweep your zone and dig **every** pile. Digs are random; the part is in there somewhere.
- Bad digs happen: a zombie, one live grenade, or two live grenades. Back off after you press dig.
- Good digs: Zombie Blood, Blood Money, Mauser C96, Remington 870, Ballista, M1216, DSR 50. Rare: Max Ammo, Double Points, Fire Sale, Insta-Kill, Nuke.

Ask a teammate to bring a second shovel and dig alongside you during snow. Four shovels exist — two in spawn (by the starting radio, and in the corridor by the Gen 3 door), and two of these three: church by the tank treads · Wind tunnel by Gen 4 · Lightning tunnel by Gen 5.

BLUE RECORD

Tank Station near Generator 2, on one of the shelves.

ICE TUNNEL → BLUE GEM

The **Ice tunnel** is **across from Generator 6, on the left as you exit the church**. The gramophone carrier places the gramophone at the end of the tunnel with the **blue record** → portal → run through.

Inside, the **blue pedestal** opens and the ice gem rises out. Take it. **Only obtainable if you entered through the Ice tunnel.**

Then build at the **blue pedestal** on the lowest Excavation level.

The Maxis Drone **Frame** can spawn right here — in the Ice tunnel, in front of the portal. Grab it.

UPGRADE TO ULL'S ARROW

A – CRAZY PLACE RIDDLE (THE PANEL-MATCHING ONE)

In the ice section of the Crazy Place:

- **Above the portal: six floating stone panels**, each showing a base-4 symbol.
- **On the wall: a blue ice panel** showing a pattern of **dots** (base-3).

Read the dot pattern currently on the wall, find the floating panel with the **matching value**, and **shoot that panel with the Ice Staff**. It flips over and the wall shows the next pattern. Repeat until **all six panels are flipped**.

SHOOT THE WRONG PANEL AND EVERY PANEL YOU ALREADY FLIPPED RESETS.

Take your time. There are twelve possible dot patterns; only six appear per game, and the pairing is randomised — so you can't memorise a fixed answer. Use the key image above. 💡 Have a teammate hold the horde while you read. Getting hit mid-puzzle is how people misfire.

B – THE THREE WATER GRAVESTONES

Three gravestones with **water flowing out of them**. For each: **freeze it with the Ice Staff**, then **destroy it with a bullet weapon**.

1. **Right of the MP40 wall-buy near Generator 4**

2. **Between the Excavation Site and a giant footprint**, close to Generator 4

3. **On top of the small hill** to the right of the back exit of the Generator 2 bunker, next to the downed mech's hand

When all three are gone you get an audio cue and a beam of light from the Excavation Site.

C – RING PUZZLE (EXCAVATION SITE, LOWER LEVEL)

Four floating rings, four levers (two on the walkway, two on the wooden scaffolding). Turn them until **all four ring lights are blue**, then **shoot the blue orb with the Ice Staff**.

One element at a time — queue with your teammates.

D – CHARGE IN THE CRAZY PLACE

Place the staff on the **blue pedestal** in the Crazy Place, kill **~20 zombies** inside, pick up **Ull's Arrow**.

Best moment to do this: while the Fire player is farming their 30 grate kills. Their riddle doesn't eat souls, so yours charges for free off their kills.

YOUR SUPERPOWER: THE ZOMBIE BLOOD FARM

Shoot **three flaming carts** with the **Ice Staff** (works upgraded or not) → a **Zombie Blood** power-up spawns next to the scaffolding by **Pack-a-Punch**.

1. Just outside the Excavation Site, by the **MP-40 wall-buy**
2. By the footprint with the stone chest outside **Generator 5 / Stamin-Up**
3. Just outside the trenches behind the Excavation Site (church side), more toward **Generator 4**

Rules:

- **Once per round.**
- **Does not work while it's raining** (the carts aren't lit).
- If you shoot all three but nobody picks the power-up up, they won't relight that round.

Why it matters:

- **Step 5 (Skewer the winged beast)** is entirely gated on Zombie Blood. You supply it.
 - With a **golden shovel** + Zombie Blood you can see glowing orange dig spots that give an **Empty Perk Bottle** → a **5th perk** for whoever digs it.
 - Zombie Blood makes you invisible to zombies, Panzers and hounds — great for reviving and for capping a generator under pressure.
-

YOUR WEAPON

Blasts of ice that slow, then freeze and shatter zombies. In **BO2 the initial blast doesn't kill instantly** — the zombie can still swing at you before it shatters, so keep spacing (BO3 kills instantly).

Upgraded (**Ull's Arrow**): wider area, longer range, and **hold fire to charge** — releases a blizzard that pulls nearby zombies in and freezes/kills them instantly. Melee one-hit-kills until round 16. Press left on the D-pad for **Sekhmet's Vigor** to revive a downed teammate at range.

If you lose the staff it returns to its Excavation Site pedestal **with the upgrade intact**.

GOLDEN SHOVEL (WORTH IT, AND IT'S YOUR LANE)

Dig 30 spots in one game → your shovel goes gold. It unlocks better digs (KSG, AK74u, STG-44, MP-40, Claymores, **Golden Helmet**) and cuts the chance of bad results.

- **Golden Helmet** = giant robot feet no longer down you. Hand it to the Wind player if they don't have one — it makes their part hunt and Steps 2/3 far safer.
- Golden shovel + Zombie Blood = **Empty Perk Bottles**.

You'll be digging constantly anyway during snow windows, so 30 comes naturally.

SHARED JOBS (EVERYONE DOES THESE)

G-STRIKE BEACON — DO IT EARLY

1. **Tank Station (Gen 2)** — take a **dirty stone tablet** (no prompt, just press action). Four exist, one per player.
2. Carry it to the **church basin of holy water**, insert it.
3. **20 melee kills** near the basin → take the cleansed tablet.
4. Return it to the **Tank Station table without stepping in mud** (use the wooden beams). Muddy = re-cleanse at the basin.
5. **20 more melee kills** near the table → **G-Strike Beacon**.

SOUL CHESTS → ONE INCH PUNCH

Four chests, 30 kills each, in giant footprints: Gen 5 / Stamin-Up · Excavation → church path (safe, not in Odin's lane) · No Man's Land entrance → Gen 4 · map corner by Gen 4 / MP-40. Claim at a **Rituals of the Ancients** board (Gen 1 or Gen 6) — aim at the **bottom-most medal**.

Robot steps reset an unfinished chest. Dig-spot zombies don't count.

EASTER EGG STEPS — YOUR PART

- **Step 2: Ull's Arrow goes into Freya** — the **left** robot, the one that treads around the Church.
- **Step 5:** you run the cart farm and hand out Zombie Bloods. Stack a couple before the squad tries the plane/pilot.
- **Step 6:** you need your own **Iron Fists** — ~20 One Inch Punch hits on white-glowing Crusaders inside the Excavation Site. Don't punch ones still climbing through walls.
- **Step 7:** Ull's Arrow on its Crazy Place pedestal, help kill 100 Templars inside.

REMINDERS

- **Call out snow every time.** Nobody ends the round until you say so.
- Don't grab **Nukes**.
- Keep the **Mauser C96** and Pack-a-Punch it; buy the **MP40** early (Tank Station wall-buy is on your route).
- You need a **bullet weapon** for the gravestone step — don't run staff-only.
