

WIND STAFF PLAYER GUIDE (P4)

A pruned copy of the full guide, focused only on what the **Wind Staff** player needs.

Your zone: the middle of the map / No Man's Land — wherever the robots are walking. **Your staff:** Staff of Wind → **Boreas' Fury**. **Your extra jobs:** you are the **gramophone carrier**. Everyone's staff depends on you running the portal circuit, so treat that as your first priority once the map opens up.

Your parts come from **inside the three giant robots**, and only **one foot per pass is lit** at random. This is a patience job — start watching robot passes from round 1 and grab whatever comes up.

YOUR CHECKLIST

- ☐ Grab the second **shovel** in spawn (corridor by the Gen 3 door)
- ☐ Pick up the **gramophone** (Excavation Site main chamber floor)
- ☐ Find the **black record** → open the **lower levels** of the Excavation Site
- ☐ Find the **yellow record** (near Gen 5)
- ☐ Part 1/2/3 — one from each robot (**Freya, Odin, Thor**)
- ☐ Run the **gramophone circuit**: Fire → Wind → Lightning → Ice
- ☐ Enter the Crazy Place via the **Wind tunnel** (Gen 4) → take the yellow gem
- ☐ Build the staff at the yellow pedestal
- ☐ Upgrade A — align the four concentric rings in the Crazy Place
- ☐ Upgrade B — aim the three smoking stone balls at the Excavation Site
- ☐ Upgrade C — rings all yellow, shoot the yellow orb
- ☐ Upgrade D — charge on the yellow pedestal (~20 kills)
- ☐ Shared: G-Strike, soul chests, One Inch Punch

ROUND PLAN

ROUNDS	YOU DO
1–2	Grab a shovel . Pick up the gramophone . Hunt the black record . Help cap Gen 1.
2–3	Place gramophone + black record in the Excavation Site → lower levels open (staff pedestals + ring puzzle). Tell the squad.
2–6	Watch every robot pass. Shoot the lit foot, get stepped on, grab the part. Repeat for all three robots.
4–6	No Man's Land opens → grab the yellow record near Gen 5. Help cap Gen 4/5.
8–12	Run the gramophone circuit for the whole squad: Fire tunnel → Wind tunnel → Lightning tunnel → Ice tunnel. Take your yellow gem on stop 2 and build.
12+	Upgrade chain, then the easter egg steps.

JOB #1: THE GRAMOPHONE

The **gramophone** always spawns on the floor of the **Excavation Site main chamber**. Only one player can carry it, and it's the key to five different things — so it's yours.

FIVE RECORDS

RECORD	OPENS	WHERE
Black	Lower levels of the Excavation Site (staff pedestals + rings)	Outside the Excavation Site: next to the excavation sign · in the wheelbarrow by Pack-a-Punch · in the trench near the church debris
Red	Fire portal	Near the church: boxes between the tank and the staircase up · church benches opposite the basin · boxes by Gen 6
Yellow	Wind portal	Near Gen 5: broken wall right of Stamin-Up · boxes by the Lightning tunnel entrance · table just inside the Lightning tunnel
Purple	Lightning portal	Near Gen 4: inside the tunnel by the gateway · bandwagon on the left as you enter · table by Der Wunderfizz
Blue	Ice portal	Tank Station (Gen 2), on a shelf

DO THE BLACK RECORD FIRST.
Nobody can build any staff until the lower levels are open.

THE CIRCUIT

Go in map order so you're not backtracking:

- 1. **Fire tunnel** — left of the spawn exit, by the Rituals box, on the way to Gen 3 → P1 takes the red gem
- 2. **Wind tunnel** — near Generator 4, next to a lightning panel → **you** take the yellow gem
- 3. **Lightning tunnel** — near Generator 5, opposite the soul chest → P3 takes the purple gem
- 4. **Ice tunnel** — across from Generator 6, left as you exit the church → P2 takes the blue gem

How it works: place the gramophone on the table at the end of the tunnel while holding that element's record. The gateway builds itself, then **run straight into it**. The portal falls apart after ~15 seconds.

Key rules:

- **A gem can only be taken if you entered through that element's own tunnel.** So all four trips are needed.
- Once a player has used a portal once, **they can rebuild that portal from inside the Crazy Place** without the gramophone — so later Crazy Place trips (riddles, charging, Step 7) don't need you.
- Announce each trip. Everyone should come along; it's four free portal unlocks per person.

BUILD THE STAFF OF WIND

Built at the **yellow pedestal**, lowest level of the Excavation Site.

PARTS – ONE INSIDE EACH GIANT ROBOT

The three robots are **Freya** (left, church side), **Odin** (centre, Excavation Site) and **Thor** (right, over Gens 2 & 3). Each head holds one part.

How to get inside:

1. Watch a robot approach. **One foot per pass has glowing lights under it** — and which foot is randomised.
2. **Shoot the glowing foot.**
3. Stand under it and **let it step on you** → you're teleported into that robot's head.
4. Grab the part, then eject (or ride out the purge).

A robot foot that you **haven't** shot **instantly downs you**. 💡 The **Golden Helmet** (dug by a golden shovel — ask the ice player) makes robot feet harmless. This is the single best quality-of-life item for your role, and it also helps in Steps 2 and 3. 💡 While inside Freya, there's a **red radio** opposite the audio log — one of the three for the *Shepherd of Fire* music easter egg. Free, takes a second.

WIND TUNNEL → YELLOW GEM

Near **Generator 4**, next to one of the lightning-upgrade panels. Gramophone + **yellow record** → portal → run through. The **yellow pedestal** opens and the wind gem rises out.

Then build at the **yellow pedestal** on the lowest Excavation level.

UPGRADE TO BOREAS' FURY

A – CRAZY PLACE RIDDLE (THE CONCENTRIC RINGS)

Above the wind portal are **four concentric rings**, each carrying four symbols. Each **pillar** shows a target symbol. **Shoot a ring with the Wind Staff to rotate it.** Align the rings so that each row of symbols adds up to the value on the pillar it points at.

Reading the symbols (base 4): count the lines in each shape.

- One shape → its line count
- Two shapes → (first × 4) + last
- Three shapes → (first × 16) + (second × 4) + last

THE CORRECT FINAL ARRANGEMENT NEVER CHANGES

— only the starting rotation is randomised. You can just match the key image instead of doing the maths. 💡
Best vantage point: stand **between the rocks to the right of the portal gateway.**

When it's right, the inner rings rotate up with an audio cue.

B – THE THREE SMOKING STONE BALLS

Three stone balls emit smoke. **Shoot each with the Wind Staff to rotate it until its smoke blows toward the Excavation Site.**

1. **Behind the Stamin-Up machine** (Generator 5)

2. **Between Generator 4 and the Wind tunnel**

3. **On the outside section of No Man's Land**, on the tank's return path

BALL #3 MUST BE APPROACHED FROM THE RIGHT SIDE

so you can push the smoke the correct way. Either backtrack the tank path from the **church**, or **jump off the tank** as it returns from the Tank Station. Coordinate with the Lightning player's tank run.

Audio cue + beam of light from the Excavation Site when all three are aimed correctly.

C – RING PUZZLE (EXCAVATION SITE, LOWER LEVEL)

Four floating rings, four levers (two on the walkway, two on the wooden scaffolding). Turn them until **all four ring lights are yellow**, then **shoot the yellow orb with the Wind Staff**.

One element at a time — queue with your teammates.

D – CHARGE IN THE CRAZY PLACE

Place the staff on the **yellow pedestal** in the Crazy Place, kill **~20 zombies** inside, pick up **Boreas' Fury**.

Do this during the Fire player's grate farm — their riddle doesn't consume souls, so your staff charges off their kills.

YOUR WEAPON

Fires a wind blast that flings zombies away and kills them on impact. Upgraded (**Boreas' Fury**) it **holds to charge** into a vortex that sucks in and shreds a group — one of the best panic buttons in the game. Melee one-hit-kills until round 16. Press left on the D-pad for **Sekhmet's Vigor** to revive a downed teammate at range.

If you lose the staff it returns to its Excavation Site pedestal **with the upgrade intact**.

SHARED JOBS (EVERYONE DOES THESE)

G-STRIKE BEACON – DO IT EARLY

1. **Tank Station (Gen 2)** — take a **dirty stone tablet** (no prompt, just press action). Four exist, one per player.
2. Carry it to the **church basin of holy water**, insert it.
3. **20 melee kills** near the basin → take the cleansed tablet.
4. Return it to the **Tank Station table without stepping in mud** (use the wooden beams). Muddy = re-cleanse at the basin.
5. **20 more melee kills** near the table → **G-Strike Beacon**.

SOUL CHESTS → ONE INCH PUNCH

Four chests, 30 kills each, in giant footprints: Gen 5 / Stamin-Up · Excavation → church path (safe, not in Odin's lane) · No Man's Land entrance → Gen 4 · map corner by Gen 4 / MP-40. Claim at a **Rituals of the Ancients** board (Gen 1 or Gen 6) — aim at the **bottom-most medal**.

YOU'RE THE ROBOT PLAYER – YOU'LL SEE THIS HAPPEN.

If a robot steps on an unfinished chest it closes and resets. Call out robot lanes so the squad farms the safe chest first.

EASTER EGG STEPS – YOUR PART

- **Step 2: Boreas' Fury goes into Odin** — the **centre** robot, the one that treads the Excavation Site. You're already the robot expert, so you'll likely be placing more than one staff. Remember: **Ice** → **Freya** (left/church), **Wind** → **Odin** (centre), **Lightning** → **Thor** (right/Gens 2&3), **Fire** → **staff room pedestal**.
- **Step 3:** you're the natural **button presser** — enter a robot, press the red button, while a teammate throws the **G-Strike onto the seal behind/right of Generator 5**. Count them down before you press. After Step 2, all three robots roam at once and only one foot is lit at a time, so expect a few attempts.
- **Step 6:** you need your own **Iron Fists** — ~20 One Inch Punch hits on white-glowing Crusaders inside the Excavation Site. Don't punch ones still climbing through walls.
- **Step 7:** Boreas' Fury on its Crazy Place pedestal, help kill 100 Templars inside.

REMINDERS

- **Black record first** — the whole squad is blocked until the lower Excavation levels are open.
- Don't end a round while it's **snowing** (ice player's parts).
- Don't grab **Nukes**.
- Keep the **Mauser C96** and Pack-a-Punch it; buy the **MP40** early (there's a wall-buy near Gen 4, on your patch).
- Ask the ice player for a **Golden Helmet** as soon as they have a golden shovel.
